The stress of living in a highly competitive, materialistic and technologically fast moving world is on the increase and we all need guidance on how to deal with these issues before they impact negatively on our lives.

This strictly confidential programme offers support on an on-going basis and during a life crisis. It also has a confidential Stress Line to help you in reducing the negative effects that everyday demands have on your life.

As part of your emergency services benefit, you can arrange international travel cover for emergency (unforeseen and unexpected) medical costs while you travel outside South Africa. No elective or non-emergency medical expenses will be covered.

The benefit is only available if you have declared your travel through our portal administered by Travel Insurance Consultants (TIC) before you depart on your international journey, and if you are travelling for 90 days of less. Each person traveling must declare their journey. The benefit will NOT be available if the journey was not declared.

To arrange your cover, log in to our website or mobile app and select International Cover under Benefits > My Cover and complete the travel declaration.

In addition to the traditional support channels, each Member Firm is allocated a Relationship Manager who is responsible for ensuring that the firm gets a personalised service.
